BIOMAR · HEALTH & SAFETY TRAINING

Reporting incidents, hazards and near misses in Workday

Storyboard v2 for the employee training video. Each frame shows the illustration, the voice-over that plays over it, the action and the camera move. Dashed frames are motion graphics or the Workday screen recording.

Length ≈ 3:55 **Language** English **Frames** 15 illustrations, 4 screen-recording beats, 3 graphics **Audience** all employees, operations first

See it. **Report it.** **Prevent it.**

SCENE 1 Why incident reporting matters 0:00 – 0:25

1A

0:00

VOICE-OVER

> Together, we can create a safer workplace by learning from every hazard, near miss and incident.

ACTION

Production operator checking the line at the control panel. Guards closed, full PPE.

CAMERA

Slow push-in.

1B

0:09

VOICE-OVER

> When you report what you see or experience, you help us identify risks early and prevent future harm.

ACTION

Warehouse operator scanning a pallet from the pedestrian side of the racking.

CAMERA

Lateral slide along the racking.

1C

0:19

VOICE-OVER

> Reporting is quick and easy for everyone in Workday.

ACTION

Office: employee opens a laptop to start Workday. Screen faces away; the real Workday screen comes in Scene 4.

CAMERA

Gentle push-in toward the laptop.

SCENE 2 What is a safety incident? 0:25 – 1:10

MOTION GRAPHIC

On screen: “What is a safety incident?”

2·0

0:25

VOICE-OVER

> Safety events can take different forms, including:

ACTION

Title card on light-blue background.

CAMERA

Motion graphic

ON SCREEN

On screen: “What is a safety incident?”

2A

0:32

VOICE-OVER

> Injuries, such as cuts, burns, strains or fractures.

ACTION

PERSONAL INJURY: operator slips on spilled liquid. Not graphic, no blood.

CAMERA

Quick freeze-frame at the moment of the slip.

ON SCREEN

Label: Personal injury

2B

0:37

VOICE-OVER

> Hazards, such as damaged equipment, spills, blocked walkways or other unsafe conditions that could cause harm.

ACTION

HAZARD: liquid leaking from a cracked hose onto the walkway. No people.

CAMERA

Slow tilt down from the hose to the puddle.

ON SCREEN

Label: Hazard

2C

0:46

VOICE-OVER

> Near misses, where no one was hurt and nothing was damaged, but easily could have been.

ACTION

NEAR MISS: an overhanging box falls from the racking and lands more than a metre away. Nobody is hit.

CAMERA

Box falls in real time, short hold on the operator's reaction.

ON SCREEN

Label: Near miss

MOTION GRAPHIC

Cards: Personal injury · Hazard · Near miss → central box: Safety Incident

2D

0:55

VOICE-OVER

> Even when a hazard or near miss causes no harm, reporting it gives us the opportunity to learn, address the risk and help keep everyone safe.

ACTION

The three examples shrink into cards and connect with lines to one central box.

CAMERA

Motion graphic

ON SCREEN

Cards: Personal injury · Hazard · Near miss → central box: Safety Incident

SCENE 3 What should you do? 1:10 – 1:55

3A

1:10

VOICE-OVER

> If an incident occurs, your first priority is to prevent further injury or material damage. If it is safe to do so, stop the activity, secure the area and take any immediate action needed to protect people and create a safe workplace.

ACTION

Operator stops the activity and places a wet-floor sign at the edge of the spill, standing on dry floor.

CAMERA

Medium shot, small push-in.

ON SCREEN

Icon: warning sign

3B

1:32

VOICE-OVER

> Help anyone who is injured, seek assistance and follow local emergency procedures.

ACTION

Colleague kneels next to the injured operator on dry floor and calls for help on the radio. Does not move him.

CAMERA

Static, slight drift.

ON SCREEN

Icon: first aid / radio

3C

1:41

VOICE-OVER

> Once the situation is safe and under control, it is time to report: inform your supervisor or manager as soon as possible and submit the incident report in Workday.

ACTION

Operator explains what happened to the shift supervisor; the marked-off spill is visible behind them.

CAMERA

Slow arc around the two.

ON SCREEN

Icon: speech bubble

SCENE 4 How to report in Workday 1:55 – 3:25

4A

1:55

VOICE-OVER

> As an employee, you can report safety incidents directly in Workday, helping ensure that important information is recorded promptly. You can report from your computer or phone, whichever is most convenient.

ACTION

Operator standing still in a safe area off the traffic route, glove off, phone in hand.

CAMERA

Push-in toward the phone, then cut into the screen.

SCREEN RECORDING

Highlight: Report Safety Incident

4·1

2:10

VOICE-OVER

> To get started, just open Workday and select “Report Safety Incident” from the menu.

ACTION

Screen recording: open Workday → menu → Report Safety Incident.

CAMERA

Your screen recording, framed in an illustrated phone

ON SCREEN

Highlight: Report Safety Incident

SCREEN RECORDING

Highlight: search bar

4-2

2:20

VOICE-OVER

> You can also search for “Report Safety Incident” using the search bar.

ACTION

Screen recording: type the search term in the search bar.

CAMERA

Screen recording

ON SCREEN

Highlight: search bar

SCREEN RECORDING

Location: In which business unit and site did the incident happen? · Incident date and time: When did the incident happen? · Incident type: What type of incident? · Incident location: In what area did the incident happen? · Summary: Describe what happened and leave out names and other personal information

4·3

2:27

VOICE-OVER

> You just need to complete the following fields: business unit and site; date and time of the incident; type of incident; area where the incident occurred; and a brief summary of what happened. Please do not include names or other personal information.

ACTION

Screen recording: zoom on each field in turn with its call-out.

CAMERA

Screen recording + call-outs

ON SCREEN

Location: In which business unit and site did the incident happen? · Incident date and time: When did the incident happen? · Incident type: What type of incident? · Incident location: In what area did the incident happen? · Summary: Describe what happened and leave out names and other personal information

4B

2:55

VOICE-OVER

> If it is safe and relevant, you can also upload photos before submitting the report.

ACTION

Operator taps “Take photo” and photographs the spill with both hands from outside the puddle, gloves tucked in the vest pocket. Sign already in place.

CAMERA

Over-the-shoulder, then the photo appears in the form.

ON SCREEN

Highlight: Take photo

Screen recording

ON SCREEN

Highlight: Submit

4C

3:11

VOICE-OVER

> After you submit the report, your local Health & Safety representative will review it, investigate the incident, ensure relevant corrective actions are taken and follow up as needed.

ACTION

Safety Partner reviewing the new report and its photo at her desk.

CAMERA

Slow push-in over the shoulder.

SCENE 5 Closing 3:25 – 3:47

5A

3:25

VOICE-OVER

> Every report makes a difference.

ACTION

Another site: two operators walking on the marked walkway outside a coastal feed plant.

CAMERA

Wide, slow lateral move.

5B

3:29

VOICE-OVER

> By reporting incidents, you help protect your colleagues…

ACTION

Supervisor and Safety Partner reviewing the improvement trend.

CAMERA

Static, gentle drift.

5C

3:34

VOICE-OVER

> ...and contribute to a safer workplace for everyone.

ACTION

The whole team in the production hall, inside the walkway.

CAMERA

Slow pull-back.
