***** Disclaimer*****
The BioMar Brand Guidelines are a living document and thus is subject to change at any time. There will always be exceptions to the rules but these must always be approved by Global Marketing,

Purpose Statement

We are innovators dedicated to an efficient and sustainable global aquaculture.

The BioMar Purpose is rooted in our heritage and our commitment to aquaculture. Through cutting-edge knowledge and long lasting partnerships with our stakeholders, we strive to develop and deliver truly efficient, sustainable, and healthy feed solutions.

We are dedicated to innovating aquaculture.

Shortened Purpose Statement

Powered by Partnership. Driven by Innovation. We are innovators in high performance aqua feeds dedicated to doing our part in sustainable global aquaculture.

Our Tagline

Powered by Partnership.
Driven by Innovation.

Our Purpose

At BioMar we are dedicated to innovating aquaculture while growing the industry in an efficient, sustainable way.

Our Purpose Statement addresses who we are, who we want to be, where we are coming from and where we are going.

Founded in 1962 by fish farmers, developing the aqaculture industry is deep down in the soul of BioMars heritage and is lived every day, in every part of our organisation.

Aquaculture is such an essential industry, and for decades we have provided nutritious, healthy and safe feed solutions in ever-more-sustainable and innovative ways.

Our main focus is supporting our customers delivering healthy, great tasting seafood. We do this by innovating efficient, safe and nutritious feed with minimal environmental footprint.

We believe that only through dedication and a wholehearted effort for a long-term sustainable industry, we can innovate for the challenges of tomorrow, be a profitable business and a great place to work - while being a trustworthy corporate citizen doing the right thing.

BioMar is in it for the long haul, developing open, long term partnerships across the globe. We action the belief that only long-term thinking and a true dedication to innovation can sustain a strong global aquaculture industry.

BioMar Brand Guidelines [v5]
2026

Corporate Logo

The BioMar Logo is our face.
Our brand identity encapsulates our core essense and personality under one visual identity across the globe.

Primary Logo

BioMar Logo

The BioMar Corporate logo is our most valuable brand asset.
It is very important we use it as the primary logo around the globe.

Logo Elements
The BioMar Logo elements create a sense of movement and connectivity. The box icon has rounded corners to speak to the friendly aspects of our brand personality. The colours reflect our planets water, sky and land.

Logo File Formats
The BioMar Logo has been created into 3 different file formats: eps, jpg and png. The eps file format is for print. jpg and png file formats are for screen/digital.

Logo over BioMar Blue
It is permitted to use the BioMar primary logo over a BioMar Blue. It is also permitted to use a dark outer glow to define the edges of the box element.

(See Right)

Incorrect use of the Logo

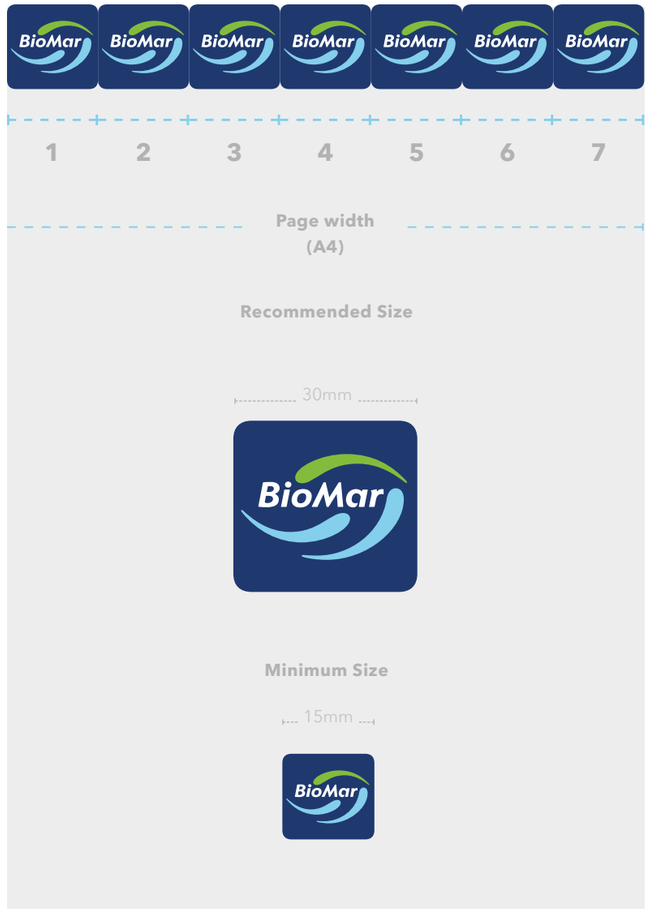

Incorrect Uses

The dimensions for the logo are fixed, and should not be altered.

Don't:
- Use the logo out of the box with black text.
- Use the logo in a square box.
- Alter the dimensions.
- Change the colours.

Size & Scaling

Recommended Size
We recommended that the BioMar logo be displayed as 1/7th of the width a page.

For a standard A4, (see left) this measures 30mm wide x 27.913mm high. *

* Note:
The BioMar box icon element is not a perfect square. Please be aware when scaling the logo, to make sure that the ratio is always the accurate.

Minimum Size
A recommended minimum size of the logo is 15mm wide. *

(This is just a recommendation. The BioMar logo should be a size that is legible and appropriate for each application.)

Spacing

Minimum clear space
To maximise the visual effect of our logo, it is important to leave enough clear space around it. Nothing should intrude into this space.

The minimum clear space can be calculated by using the top 'wave' of the BioMar Logo.
(See Below)

Layouts

Placing the Logo
The logo should appear on all BioMar material.

It can be placed on most coloured and photographic backgrounds.

Always place the logo prominently and ensure that it appears clearly. We recommend that the logo is to be placed in one of the four corners of the layout. The distance from both edges must be equal.

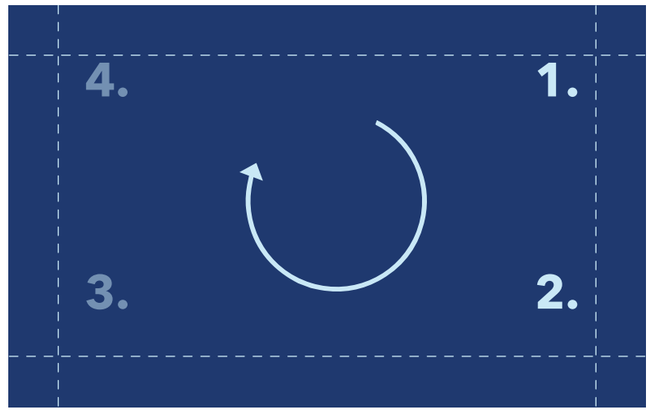

As a general rule, the BioMar logo must be placed in the top and bottom right hand corners.
(Positions 1. & 2.)

(This is a general rule as there will be layouts where the positioning will differ for different applications)

Logo over photograph
When the BioMar Logo is to be placed over an image or photograph it is important that it sits in a 'clear' area of the image.

Example (right):
The top left logo does not work as it is not in a 'clear' area of the image. The top right logo disturbs the image, so the best logo to use will be the bottom right corner.

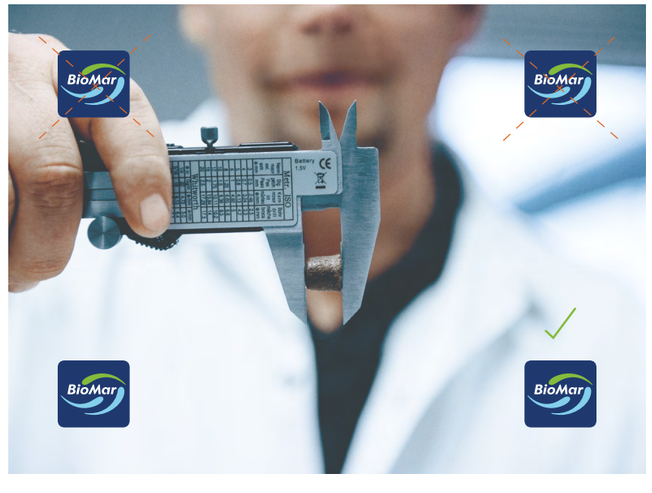

BioMar Brand Guidelines [v5]
2026

Logo corner spacing

Logo over Photograph or Image

Logo & Tagline

Logo & Tagline Versions
The logo and tagline have been created in 4 different versions:

- Vertical & BioMar Blue text
- Vertical & white text
- Horizontal & BioMar Blue text
- Horizontal & white text

Note:
No other versions of the tagline and logo combination are allowed.

Usage
We have put a lot of effort into making the logo and tagline combination look perfect. This includes altering ligatures and changing letter spacing, so please always use the files provided and never 'recreate' or type the tagline.

Marketing Material
The logo and tagline combination should appear at least once is all marketing material. We recommend using it as the corporate sign off at the end of the document.

(See opposite)

Alignment
When the vertical logo and tagline is used, it must always be centered on the page.

The horizontal logo and tagline should be left aligned on the page.

Files
We have created the files for the logo and tagline so that they will always be displayed as intended.

(Files provided)

BioMar Brand Guidelines [v5]
2026

Example

Here is an example of a corporate sign off at the end of a document or presentation using the logo and tagline combination.

Layout notes
- Centered
- No larger than 1/3 width.
- Lower 1/2 page.

Incorrect uses

The dimensions for the logo are fixed, and should not be altered.

Don't:
- Change the colours.
- Add effects to the tagline.
- Incorrectly scale or squish the logo.
- Left align and/or type the tagline.

Logo over BioMar Blue
It is permitted to use the BioMar primary logo with tagline over a BioMar Blue background.

It is also permitted to use a dark outer glow to define the edges of the box element.

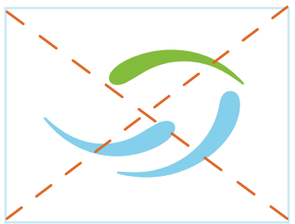

(See Right)

Correct Application - Dark Blue

White

Light tones of Blue

Grey - Both dark and light

Medium toned Blues

Logo for Promotional Materials

Usage
The BioMar Primary Logo without the box element is to ONLY be used for PROMOTIONAL MATERIAL applications where the primary logo cannot work.

Colour Restrictions
This specific logo can NEVER be used against any colour other than dark blue, navy or black.

Dark blue should always be the first priority when sourcing items.

***** THIS LOGO CAN NEVER BE USED IN PRINT OR DIGITAL MEDIA APPLICATIONS *****

Promotional Clothing
For all corporate promotional material we recommend using blue, (dark blue/navy as first priority.) When blue is not an option - you are permitted to use black products. Please refrain from using other colours.

(White is only to be used for environmental reasons like extreme heat or mosquitoes.)

Incorrect Background Colours
This logo should not be displayed/ used on promotional material that is any other colour than Dark Blue, Navy or Black.

(See examples below)

White Logo

Usage
The BioMar white logo is to be used on blue backgrounds.

It is important to note that on all applications, blue must be present. This can either be in the logo or in the promotional material itself.

The blue tones should be similar to those from the BioMar colour palette and we recommend using medium tones for this logo.

Try to avoid using light blue where possible.

(Refer to BioMar Colour Palette)

BioMar Blue Logo

Usage
The BioMar Blue Logo is to be used for applications where the primary logo cannot work on promotional material.

Colour Restrictions
This specific logo can NEVER be used against any type of medium to dark blue.

BioMar Brand Guidelines [v5]
2026

Element Logo

This logo is made up of the elements from the BioMar Blue logo excluding the wordmark.

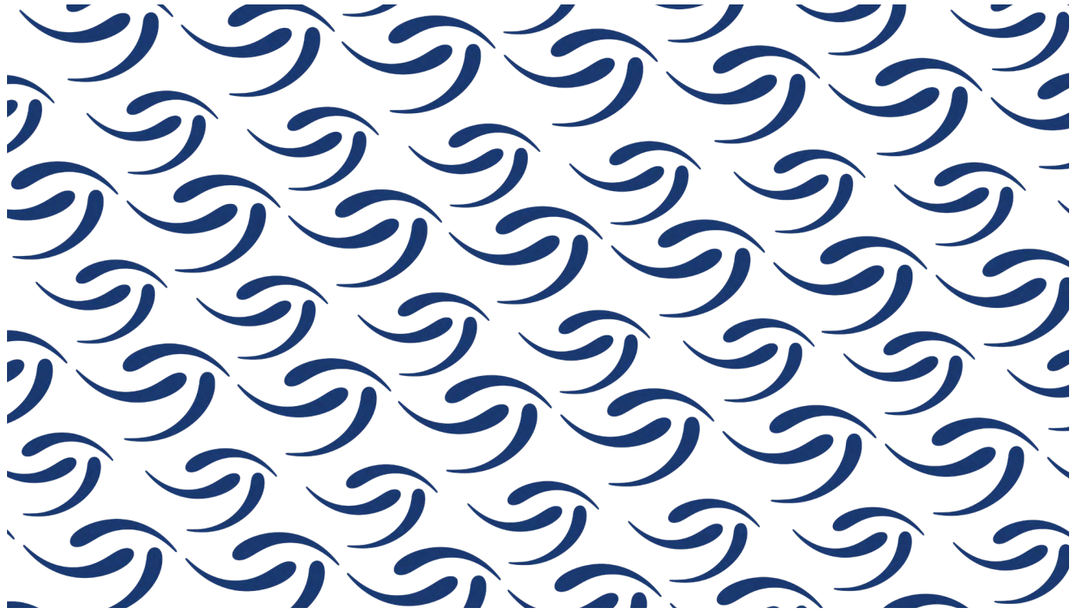

Usage
This logo can be used when a symbol format is more appropriate and when it is prohibited by law to use the BioMar wordmark.

Colour Versions
There are 2 colour versions; White and BioMar Blue.

Pattern
A pattern format has been designed for cases where a pattern is required
