Templates

Templates have been created in order to help bring the guidelines together.

Adobe templates have instructions within the file and are set up and ready to go!

Use
Instructions within each template allow for easy use and a consistent look and feel across all media and outputs.

If none of the templates fit your needs, please feel free to contact Global Marketing for assistance.

Note:
Some templates are exceptions to the rules stated in previous sections, each template or application override the general rules. *

* In cases where the rules do not apply or are not displaying well, please contact Global Marketing.

BioMar Brand Guidelines [v5]
2026

Grid System/Layout

Example
In this document, the margins were set first, followed by the grid.

The grid is made up of 2 grids;

3 x Columns
5 x Rows

and

15 x Columns
25 x Rows

So;
Each large square consists of 25 smaller squares.

(For more standard format grids, see the next page).

25 mm

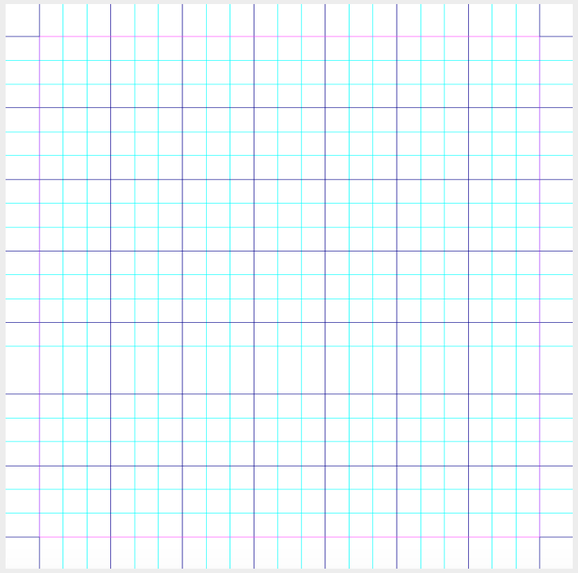

12 mm

Margins
Top: 12 mm
Bottom: 12 mm
Inside: 25 mm
Outside: 12 mm

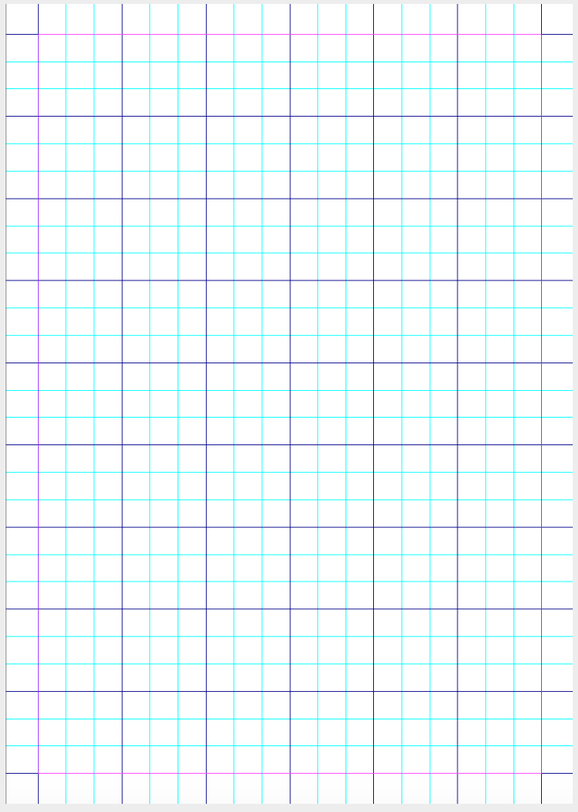

5 x 5 squares

15 x 25 squares

Square (200x200)

A4 (210x297)

Examples

Here are the recommended grid layouts for two different standard formats.

(row x column)

Square (200x200)
Margins: 12 mm

Small grid: 7 x 7

Large grid: 21 x 21

Note:
All grids are set within the margins and have no gutter.

A4
Margins: 12 mm

Small grid: 9 x 6

Large grid: 27 x 18

Note:
All grids are set within the margins and have no gutter.

Social Media

Cohesive Look
It is important to create a cohesive look and feel across all social media platforms.

Introduction Statement
The BioMar introduction statement is designed as a quick overview of our purpose.

Tone of Voice
As a leader in innovation and sustainability we should take a professional tone in all our communications including all our social media channels.

Do:
- Say what we 'support/like'
- Share simple facts and accurate figures.
- Take a professional tone.
- Always be respectful.

Don't:
- Avoid taking an overly friendly or too familiar tone.
- Do not engage in debate style communications or negative messaging.
- Avoid saying 'don't support/like'
- Don't give opinions to various discussions and topics unless approved by Global Marketing or Corporate Communications.

Use of Emojis
We request that emojis with facial expressions not be used. To ensure a professional feel limit emoji use to no more than 3 per post.

Emojis are limited to;
the shrimp, the fish, the planet (for sustainability), the light bulb (for innovation), two hands up and the thumbs up.

Introduction Statement

Powered by Partnership. Driven by Innovation. We are innovators in high performance aquafeed dedicated to doing our part in sustainable global aquaculture.

Introduction Statement with # hashtags

Powered by Partnership. Driven by Innovation. We are #innovators in high performance #aquafeed dedicated to doing our part in #sustainable global #aquaculture.

Accepted Emojis

🦐 **Shrimp**
To be used when talking about Shrimp

🐟 **Fish**
To be used when talking about fish, seafood or aquaculture.

🌎 **Planet**
To be used when talking about Sustainability. Use the relevant planet depending on your location.

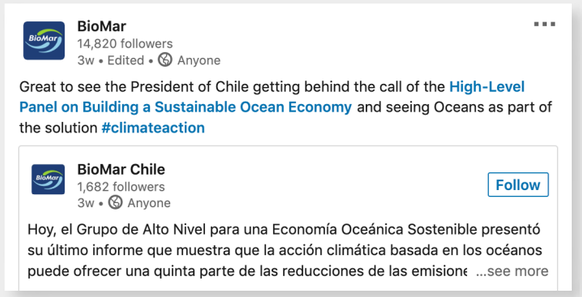

💡 **Light Bulb**
To be used to represent great ideas, thinking, learning and innovation.

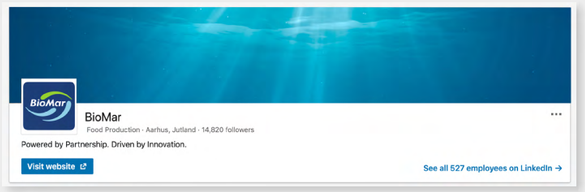

🙌 **Two hands up**
To be used when celebrating success or another joyous event.

👍 **Thumbs up**
To be used to indicate approval.

*note:
Different devices and platforms will display emojis differently.

Profile Pictures

Square Profile Display

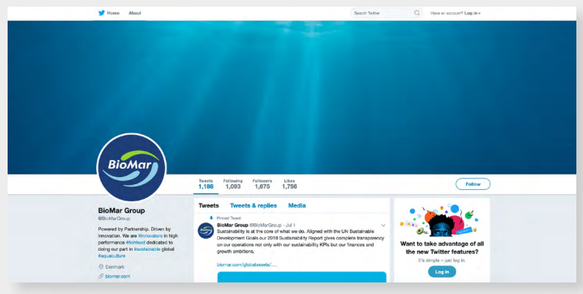

As a general rule, wherever possible the logo should be displayed in a square like format.

The logo should be the Primary BioMar Logo with the rounded corners. By displaying the logo the same way it helps to reinforce the BioMar visual identity.

Circle Profile Display

The logo can only be displayed in a circle format when the social media channel gives no square option. Ensure all sides of the logo have clear space around the edges. The elements are not touching or being cropped by the edges of the circle.

Don't:

- Don't incorrectly size the logo.
- The elements should not touch the edge of the circle.
- The elements should not be cropped by the circle.

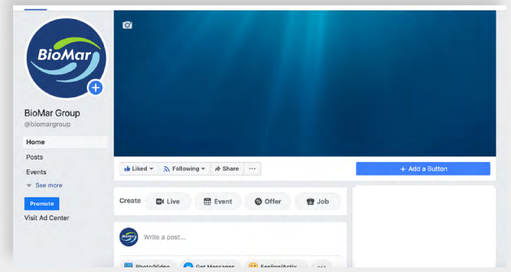

Note:
A file has been provided with extra 'blue space' around it for circular profile pictures which is intended for being scaled to fit appropriately.

Social Media Banners

Cover Image

To achieve a cohesive look and feel across the whole company we must all have the same logo and cover image across all platforms.
It is important to show that we are the same company.

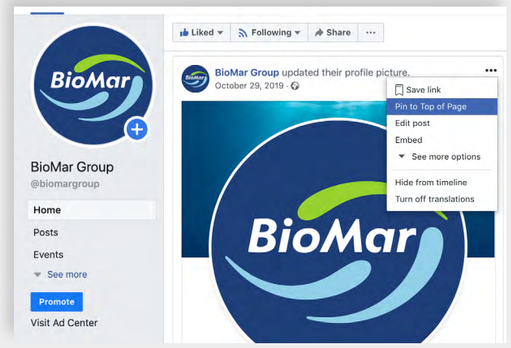

If you would like to highlight a launch, campaign or particular topic pin the post to the top of the page/ feed instead of the cover image.

Cover Video

If you prefer to have some movement in the cover image, we have a video of the cover photo that shows the light filtering through.

(Files Provided)

Social Media Icons

Use

We have created a set of Social Media Icons that can be used. This set is to help create a cohesive look throughout all applications and markets within the global brand.

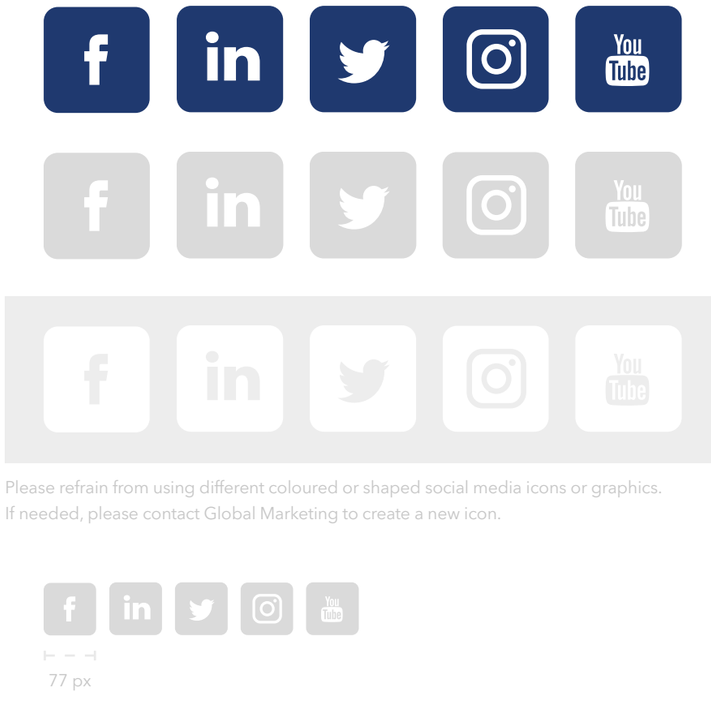

The rounded square reflects the shape of the Primary Logo.

There are 3 colour options -

BioMar Blue for light backgrounds and Grey or White for dark backgrounds.

Email Signature Icons

We are also using our social media icons in Grey for our Corporate Email Signatures.
(Files provided)

Please refrain from using different coloured or shaped social media icons or graphics.
If needed, please contact Global Marketing to create a new icon.

Email Signature

We are BioMar
It is very important that all BioMar employees worldwide have the same email signature. This enforces our brand recognition and identity as well as creating a cohesive look and feel around the globe.

Email Signature Set Up:

Kind Regards,

How to:
Open 'Outlook' > File > Options > Mail > Stationary and Fonts > Font

Email Banner

Advertising Banner (Optional)
The advertising banner has been created as a template so that there is consistency in the appearance. All product and campaign banners can have local languages, unless otherwise stated in the campaign, but the display of text and images must remain the same.

(File provided)

Tagline Banner (Optional)
There is the option to have the tagline displayed as a banner.

(File provided)

Business Cards

Options
We have a created a set of options for the BioMar business cards. This allows each person to select what they wish for the front and back for their personal card.

Front
On the front of the business card you can choose from 3 different options as shown to the left. Each option has the BioMar logo and the tagline.

Back
The 3 different watermarks for the back of the BioMar business cards.
P. Pellets
S. Shrimp
F. Fish

Template
To make sure that everyone in BioMar has the same Business card we have created a template in InDesign that you can use.
(File Provided)
(Further explanation in template)

QR Codes
There is the option to have a personalised QR code on your business card. This code holds all of your contact information and can be scanned to save the information directly on other devices.

Static vs Dynamic QR Codes
A static QR code stores information, such as a website link, and cannot be changed once the code has been generated.

Information on a dynamic code can be changed and updated even after the code has been generated and printed. This is perfect for vCards - digital business cards.

Business Cards Finish

There is several options for finishes for the BioMar Business Cards depending on costs and needs.

Satin Paper, Matte Finish
It is recommended to use a satin paper with a matte finish to achieve a high-quality look and feel.

Spot Gloss
The option to add a spot gloss to the front of the business card is a great way to create a more professional, high quality card.
The spot gloss is only to be used to highlight the Logo and tagline.

(Shown right)

Business Card Settings
Digital Print
Full Colour (4+4)
350g Silk Paper - Matte Finish
Partial Spot Gloss
Premium Business Card
Printed by LaserTryk.dk

Note:
While this Business Card is 'Splashproof', it is not waterproof. If you require something more durable, talk with your local print service.

Without QR Code

Logo instead of QR
For those who do not want or need a static or dynamic QR code the BioMar logo is to be used instead. This space is not to be left empty.

(See Right)

Spot Gloss File Set up
In order to get a 'Spot Gloss' or sometimes known as a 'lacquer' it is important to highlight the selected areas that are to be covered by the spot gloss. (Shown above)

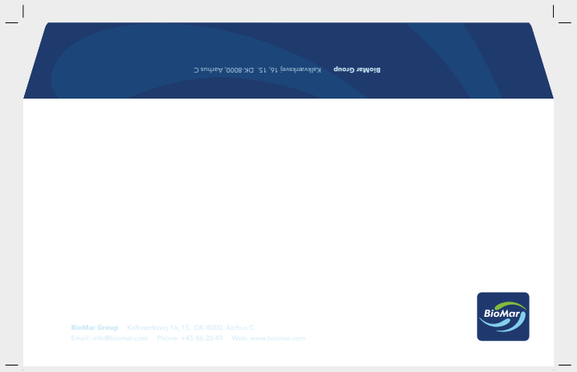

Each printer will have different way of setting up the files so make sure to follow the instructions from your local print service.

* It is important to only use the spot gloss on the Logo and Tagline on the cover of the Business Cards.*

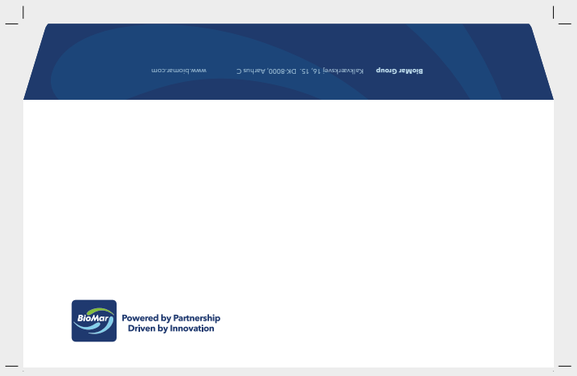

Logo instead of QR code

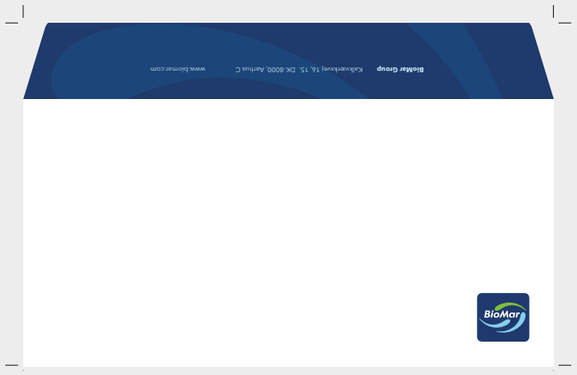

Option 1:

Option 2:

Option 3:

Envelopes

Designs
Each envelope has 3 different variations - depending on the information you wish to include.

Option 1:
Logo & Office information, address on tab

Option 2:
Logo with Tagline, address & website on tab

Option 3:
Logo, address & website on tab

(Template Files Provided)

Envelope Sizes
C4 - 324mm x 229mm
Fits unfolded A4

C5 - 162mm x 229mm
Fits A5 or A4 folded

M5 - 155mm x 223mm
Suitable for gift cards

M65 - 110 x 220 mm
Fits A4 folded twice

Note:
In a case where the envelopes will be purchased in bulk, to reduce costs, for multiple markets it is recommended to print without the address.

The address can be added with market addresses with either a sticker or stamp.

Office Stationary

BioMar Brand Guidelines [v5]
2026

Greeting Cards

Template
The BioMar Greeting card is a standard card intended to be used for various occasions.
The inside is left blank.

The template is very easy to use and even provides a print ready PDF for sending directly to the printer.

Flat size: 148mm x 210mm
Folded size: 148mm x 105mm
A6 Tent Fold

Print Recommendations
We recommend printing on 260gsm card with a matte or silk finish.
Optional: Silver foil finish.
(See below)

(Template Provided)

With Compliments Card

Template
The BioMar 'With Compliments' card is a A7 sized card intended to be used for gifts. This card is double-sided without a fold
(unlike the greeting card)

The template provides a print ready PDF for sending directly to your local printer.

Size: A7 105mm x 74mm

Print Recommendations
We recommend printing on;
260gsm card.

Optional: Silver foil finish
See template options.

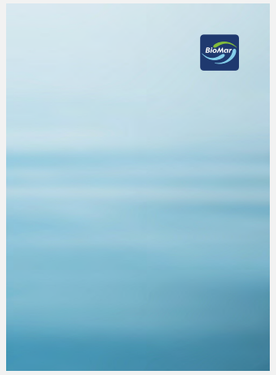

(Template Provided)

Front:

Inside (Full Colour) *

Presentation Folder

Designs

Due to the many usages of these folders we have created several design options for the BioMar presentation folder.

Each design can be used with your favourite Dark blue watermark background or a neutral water image. For more guidelines on the type of water images to use please refer to the 'Photo Style Guide' section .

Templates

Each printer generally has different templates for Presentation folders so make sure to use the required files provided by your local print company to ensure the best and most accurate result.

The provided templates are to show the layout and sizing of the elements so that it is easy to copy and paste into your template. If you need any help please contact Global Marketing.

*Depending on cost and printer availability, we recommend using Full Colour inside the folder, in BioMar Blue. However, we recognise due to cost this might not be affordable so a blank interior is permitted.

Printing Recommendations

We recommend printing with a Matte finish to create a luxury look and feel if this is an affordable and available option.

Also consider the inclusion of slits for business cards.

Office Stationary

Certificates

Template

The BioMar Certificate Template is designed to have a very crisp, sharp and professional look and feel while adding some personality by having a watermark on the reverse.

The layout might differ slightly depending on each certificates specific information.

The Recipients name can be written by hand after printing or can be displayed in the typeface 'Signpainter'.

(Files Provided)

Print Recommendations

We recommend getting the certificates professionally printed in full colour, on 160gsm (or higher), silk coated paper.

We recommend to professionally print high quality certificate paper and then print the front on your office printer.

Avoid using the office printer to print the watermark as it provides a poor quality print and does not have a 'special' feel.

Note:
Avoid high gloss paper as it is difficult to write on - instead opt for silk or matte paper finishes.

BioMar Brand Guidelines [v5]
2026

Front:

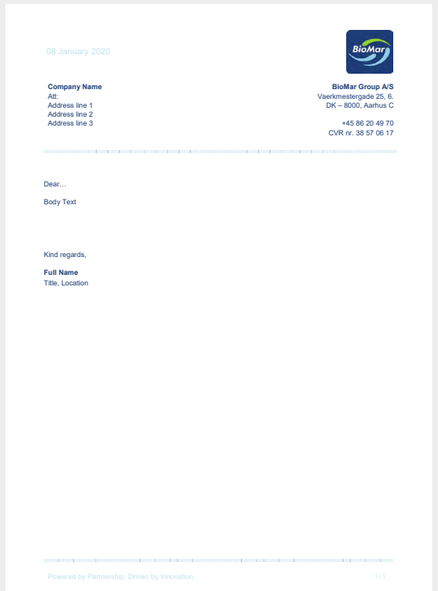

Back:

Letterhead

Microsoft Template uploaded to all BioMar computers

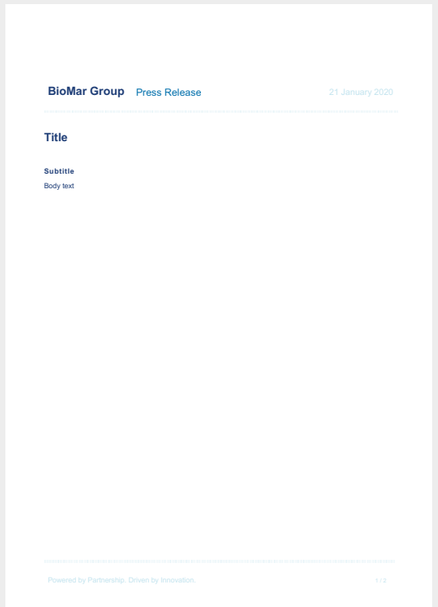

Memo

Microsoft Template uploaded to all BioMar computers

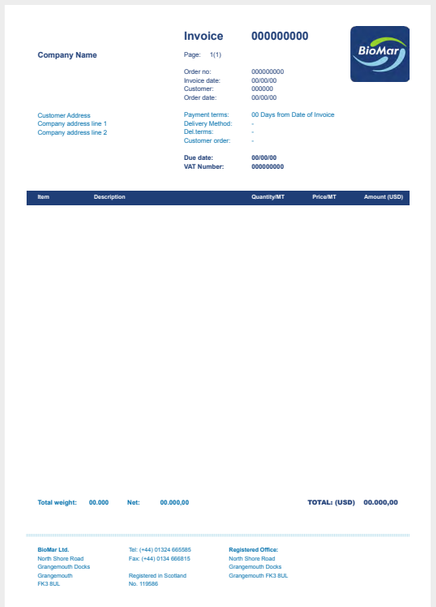

Press Release

Microsoft template is available to the relevant people.

Invoice

Template for the new M3 design layout.
(**Subject to change**)

PowerPoint Template

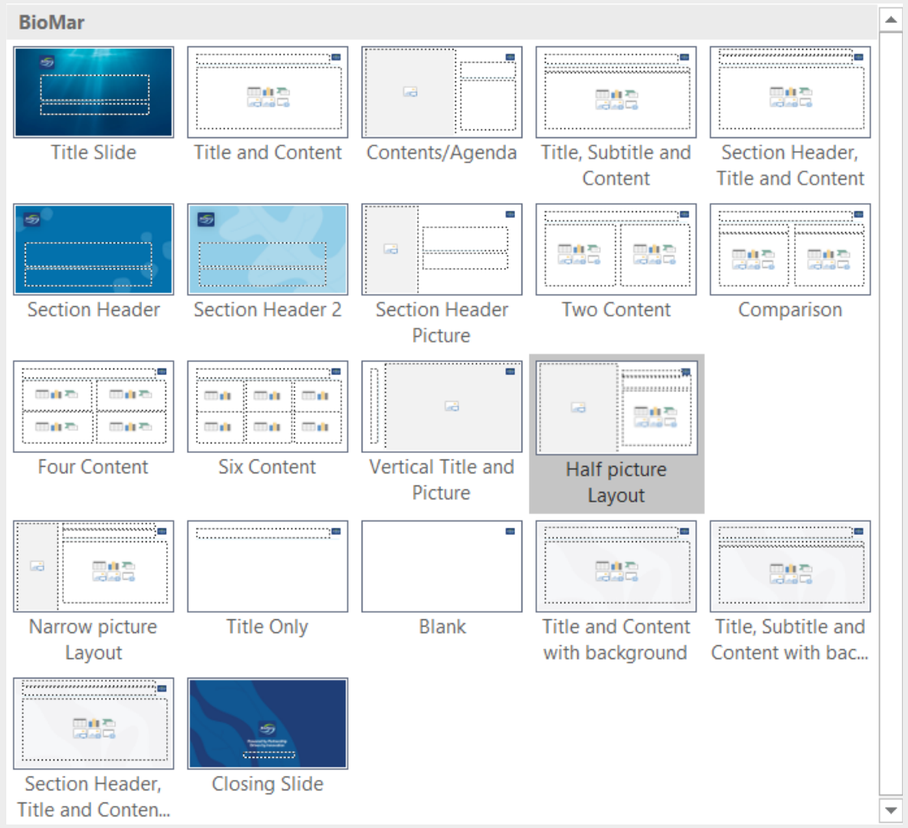

Microsoft Templates are available within the Microsoft suite on all company computers

We encourage the use of the Widescreen format for all new presentations. This is available from 'New' within PowerPoint.

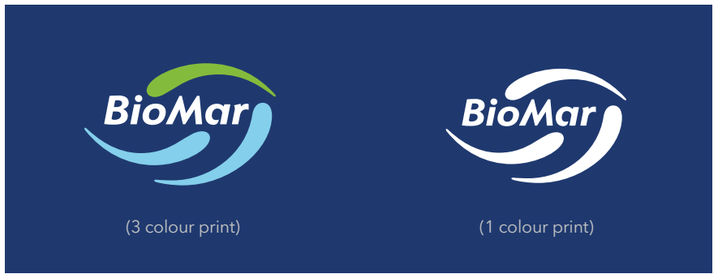

There is still a need for the Standard 4:3 format. This is why you can apply the theme from the design menu to a blank document.

Corporate Presentation

The latest Corporate Presentation will always be available within PowerPoint as it is stored in the cloud.

Primary Colour Option

Dark Blue items *
Corporate logo without box * or Solid White logo

Secondary Colour Option

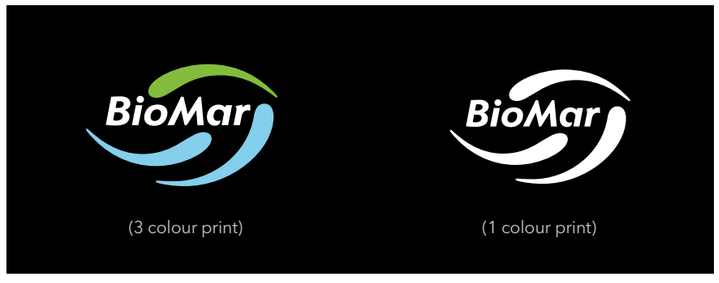

Medium Blue items
Solid White logo

Special Colour Option

White items
Solid Blue logo

Tertiary Colour Option

Black items
Corporate logo without box * or Solid White logo

High Vis items
Solid Logo in silver * or Solid Blue Logo

Logo Use

Promotional material applications require a variety of different logo variations.

As a general rule, promotional product colours should be blue. A black option is allowed when a blue option is not available. White is only to be used is certain countries due to environmental and weather conditions.

High Vis items
As a general rule, the silver logo used for high vis should only be used for high vis coloured items.

Clear items
Corporate logo with box
Solid Blue logo
Solid White logo

Other Coloured items
Light colours - Solid Blue Logo
Dark Colours - Solid White Logo

(*preferable)

Note:
If you are unsure what logo is suitable for a specific product or colour, please reach out to Global Marketing for clarification or assistance.

Promotional Material

Promotional Clothing

Logo Use
The logo without the box is ONLY FOR PROMOTIONAL ITEMS and applications. It is never to be used in any other application*.

This logo can NEVER be used on light coloured backgrounds or in ANY Print or Digital Media*.

As a rule, this logo must only ever be displayed on dark blue, navy or black products/fabrics.

It is always preferable to source dark blue items and use the logo without the box as this gives the most accurate representation of the BioMar Brand.

Incorrect uses
The logo must never be used on light coloured backgrounds.

It is forbidden to use the logo with a black word mark.

(Shown Left)

The tagline should never be displayed alongside any other logo than the primary logo.

* without explicit approval from Global Marketing

This logo must never be used on light coloured products or fabrics.

It is forbidden to use the logo with black 'BioMar' text or in Print or Digital Media.

Promotional T-Shirt

Colours
The promotional material must be dark blue. Black is a secondary option when dark blue inst an option.
(White should only be used for environmental factors.)

Note:
For a more visual explanation please see over the page.

Logo Positioning
The logo should be positioned over the heart and on the opposite sleeve. It is possible to have both or only one logo placement. We recommend using both.

Dimensions
The logo size is recommended to be 55 mm wide. Both logos should be the same size.

The tagline can be used on the back of the T-Shirt. It is to only be positioned centered across the shoulder blades.

As a general rule, the tagline should be positioned 140 mm down from the neckline and 70 mm in from the sleeve seams at the widest point.

Ratio: 2:1 (height: side width)

(For more information on how to use the tagline see next page)

Note:
This is a general rule and there will be applications that will deviate from this size guide.

Front *

* These images are digital mock-ups and so might appear differently to final shirts.

Back *

* These images are digital mock-ups and so might appear differently to final shirts.

Tagline use

Customised
The BioMar tagline is customized just for us and should not be altered.
It is important to note that you should NEVER re-create the tagline *

Usage
In general, the tagline without the primary logo should only be used on the back of promotional clothing.

Colour Versions
There are 2 colour versions;
BioMar Blue - for white/light
White - for medium to dark

*** rt Ligature**

rt

Free Typed
The 'r' and 't' do **not** meet smoothly.

rt

Ligature
The 'r' and 't' now meet smoothly.

Back - BioMar Blue Tagline

Back - White Tagline

Colour & Logo Combination

This chart has been created to help visualise when to use each logo on different types of blue backgrounds for promotional material.

Uniform Design

Uniforms

Jacket
3 x possible locations for branding -
Recommended front logo with either arm **or** back logo.

Overalls/Coveralls*
3 x possible locations for branding
*It is also possible to use a pants branding for the coveralls. (see below)

Pants | Lab Coat | High Vis

Logo Use
Navy or black coloured items can use the logo without the box.

White/light coloured items should use the solid BioMar Blue logo.

Front left chest Logo
55 mm - 65 mm wide
Positioned on the side pocket when possible.

Large back logo
180 mm wide
Centred on upper back.

Right Arm Logo
55 mm - 65 mm wide
Positioned upper arm.
65 mm for thicker fabrics like puffa jackets

Pants Logo
55 mm - 65 mm wide
Positioned on the side pocket when possible.

High Vis Logo
55 mm - 65 mm wide
Positioned on the front left chest. It is recommended that the logo be in silver when possible otherwise the solid blue logo.

Note:
Standard logo size is 55 mm wide. 65 mm wide is used for thicker materials using embroidery like puffa jackets and fleece.

Contact Global Marketing if you have any questions.

Uniform Accessories

Head Wear

Beanie/Winter Hat
It is preferable to get beanies that are a navy blue and of a high quality.
Logo size: 35mm-45mm*

Caps
It is preferable to get caps that are a navy blue and of a high quality.
Logo size: 55mm - 65mm*

Hard Hats
Stickers with the full Corporate Logo.

Recommended sticker size:
45mm-55mm wide*

It is important to get the stickers die-cut to ensure the edges are rounded if on a coloured hat.

*Depending on the construction of each selected hat. Try to re-create the proportions shown to the left.

Beanie/Winter hat

Cap

Hard Hat

Corporate Clothing

Corporate Clothing

Logo Appearance
On corporate clothing that is not a uniform, the logo should be embroidered in the same colour as the shirt for a professional clean, business look.

Logo Positioning
The logo should be placed in one of the following positions;

Centered near collar - Back
35 - 45 mm wide

Front Left chest
35* - 55 mm wide
* recommended

Roll up Banners

Please use the provided templates to ensure correct display of logo and tagline as well as spacing.

Flags

Please refer to the below pictures to see the correct display of logo and spacing.

Exterior Signage

All signage should use BioMar Blue in the background with white text in our corporate typeface: Avenir Next.

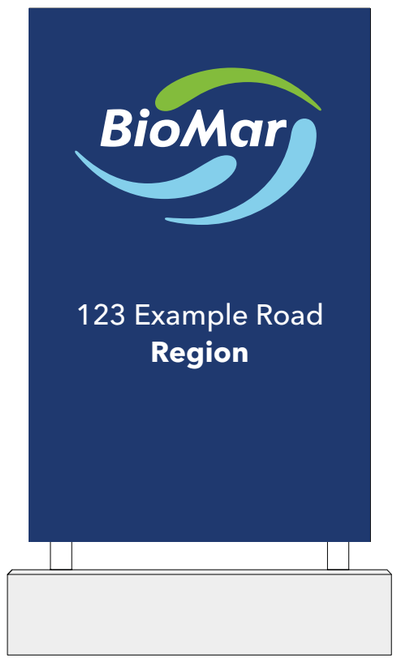

This helps to carry BioMar's visual identity throughout our workspaces.

Design Details
Background Colour: BioMar Blue
Font Colour: White
Typography: Avenir Next

Example:

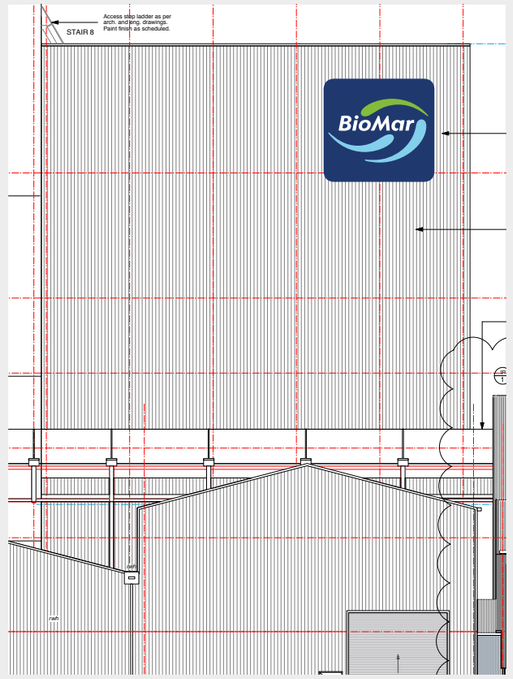

Roadside Signage:

Factory Signage:

Element Pattern

Pattern including logo

Standard Packaging

Standard Feed Bags

20 - 25 kg Bags
Standard feed bags should be printed in BioMar Blue and display the BioMar logo expect for regions where the law restricts the use of the BioMar word mark on product packaging.

(See Below)

Please contact Global Marketing to get your template updated

Note:
Each supplier has different templates and requirements so please provide these to Global Marketing to get them updated with the new branding guidelines.

(Patterns Provided)

Standard Packaging

Big Feed Bags

Big Bags
For the big bags,

The logo element should be used when the Solid Blue BioMar logo cannot due to legal restrictions.

Please contact Global Marketing to get your template updated

Note:
Each supplier has different templates and requirements so please provide these to Global Marketing to get them updated with the new branding guidelines.

Solid Blue
BioMar Logo
In markets where it is allowed to use the full BioMar logo.

* Note:
Dimensions of bags are dependent on supplier and market availability.

Solid Blue
BioMar Element
In markets where it is not allowed to use the full BioMar logo - we must legally use the element.

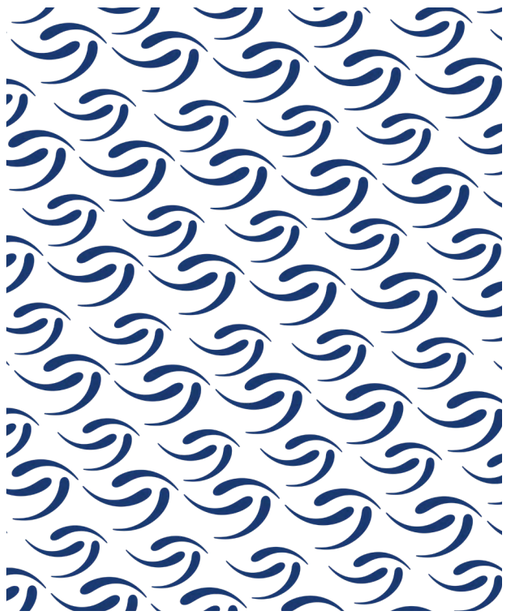

* Note:
Dimensions of bags are dependent on supplier and market availability.

Pattern including BioMar logo

Element Pattern

Black & White Labels

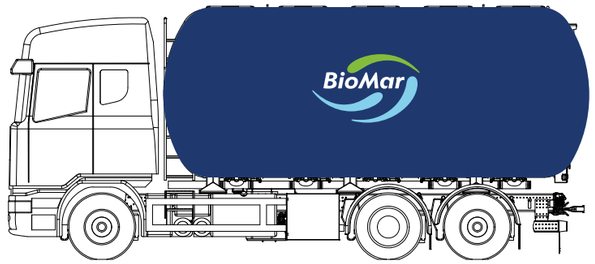

Logo use
For Black & White sticker labels for feed bags it is important to use the Corporate Logo variation

(shown here)

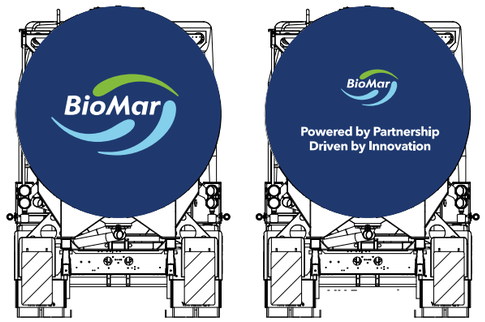

Silo Truck

Logo Positioning
Logo should always be centered both vertically and horizontally.

There is the option to have either the logo or the logo with tagline on the sides or back of the truck and trailer.

If using the logo and tagline, it is recommended to only use it once on the side and on the back.

Truck Paint Colour
Trucks should be fully painted in BioMar Blue.

BioMar Blue
CMYK: 100 84 26 12
PANTONE: 654 C
NCS: S 7020-R80 B

*Note:
Slight variations are due to occur due to different types of models - please contact Global Marketing if it falls out of these formats for assistance.

Shipping Containers

Colours and Logos
BioMar shipping containers should be painted BioMar Blue or white.

Blue containers should have the full colour, corporate logo.

White containers should have the solid blue logo.

(Shown Left)

Truck/Car

Car Colours
Vehicles should aim to be BioMar Blue. When unachievable a white vehicle is the next best option..

Logo Use
On BioMar Blue vehicles the logo should be our primary logo without the box.

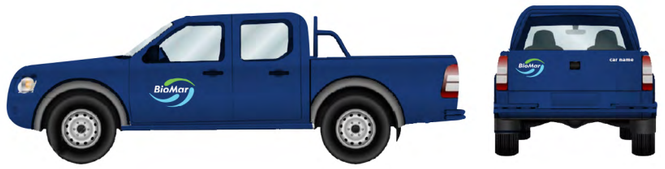

(Shown top right)

For white vehicles you are required to use the solid blue BioMar logo.

(Shown center right)

Logo Positioning Rule
When positioning the logos on the vehicle, there should be 3 logos in total. 1 on each front door and one on the rear. The logo on the rear should be on the same side of the driver unless disturbed by the car branding.

(Shown right)

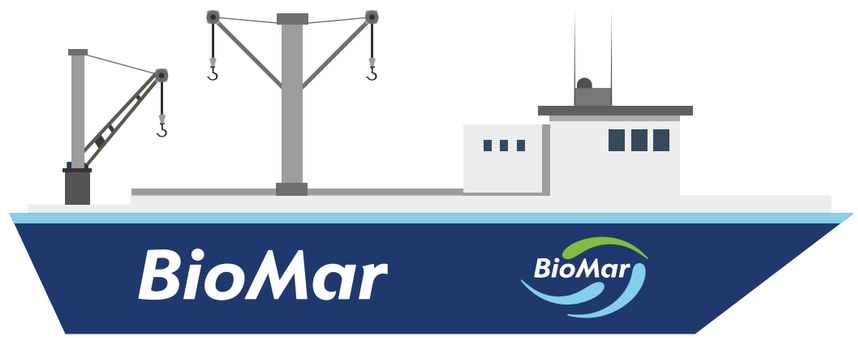

Logo Positioning Rules
Same side as driver unless disrupted with car branding.

Boat

Colours and Logos
BioMar boats should be painted with BioMar Blue and have the logo. It is also permissible to have the word-mark.

Boats with surfaces that can not be painted in BioMar Blue should always have the logo with the box.

*Note: **For all Vehicles**
Slight variations may occur due to different models - please contact Global Marketing if it falls out of these formats for assistance.

Engraving

Metal
When using engraving for metal, we recommend using silver products to ensure a consistent look and feel with other logo applications.

Logo Use
To ensure consistency we recommend using the corporate logo variation logo.

Where possible, try to engrave text using the corporate typeface, Avenir Next, following the text guidelines.

Note:
This is a general rule, but there will be special cases that require a different solution.
If so please contact Global Marketing for further guidance.

Wood
When using engraving for wood, we recommend using light coloured wood products.

Logo Use
To ensure consistency we recommend using the corporate logo variation logo. Where possible, try to engrave text using the corporate typeface, Avenir Next, following the text guidelines.

Note:
This is a general rule, but there will be special cases that require a different solution.
If so please contact Global Marketing for further guidance.

QR Codes

How?
Scan the code or go to;
www.qr-code-generator.com.

Login
(Please contact your Marketing Manager for login information)

+ CREATE QR CODE

Create QR Code > vCard Plus > Next > Load from existing vCard

1. BioMar QR Template

Name your QR code = Name of Contact details.

Fill out 'Your Information' > Next

Customize & Download your QR Code > Designs > Select BioMar Preset.

Download
(Click ⋮)

> Select your format > Select 'Use high error correction' > Download JPG

Nordic Swan
The Nordic Ecolabel or Nordic swan is the official sustainability ecolabel for products from the Nordic countries

EU Ecolabel
The EU Ecolabel is a label of environmental excellence that is awarded to products and services meeting high environmental standards throughout their life-cycle: from raw material extraction, to production, distribution and disposal.

Paper Details

The paper and printing details that were used for all documents within this folder are as follows;

Note:
Not all printers will have the same options, this was just the settings we used locally. Consult with your local printer for your desired finish.

Note:
(4+4) = Colour print both sides
(4+0) = Colour print one side

Digital vs Offset Printing
Digital printing refers to methods of printing from a digital-based image directly to a variety of media. It is best for small-run print jobs.

Offset printing is a commonly used printing technique in which the inked image is transferred from a plate to a rubber blanket, then to the printing surface. It is only cost effective when doing large print runs.

Neither method is best. It depends on costs, print quantities and colour output.

Note:
Both methods can give slightly different colours when printed so be aware of this when deciding your final printing method.

Environmental Friendly Paper
Whenever possible it is highly recommendable to select environmentally friendly/Eco paper and printing.

At BioMar we take pride in the environment. Sustainability is a huge aspect of the way we do business and it is important to consider the paper we use and the sustainability of the printing suppliers we use.

Look for Eco-labels within your country/region.

***** Disclaimer*****
The BioMar Brand Guidelines are a living document and thus is subject to change at any time. There will always be exceptions to the rules but these must always be approved by Global Marketing,
