BIOMAR · HEALTH & SAFETY TRAINING

Reporting incidents, hazards and near misses in Workday

Storyboard v6 for the employee training video. Each frame shows a still from the animated clip (or the illustration if not animated yet), the voice-over that plays over it, the action and the camera move. The Clip line names the delivered file. Dashed frames are motion graphics or the Workday screen recording.

Length ≈ 3:55 **Language** English **Frames** 15 illustrations, 4 screen-recording beats, 3 graphics **Audience** all employees, operations first

See it. **Report it.** **Prevent it.**

SCENE 1 Why incident reporting matters 0:00 – 0:25

1A

0:00

VOICE-OVER

> Together, we can create a safer workplace by learning from every hazard, near miss and incident.

ACTION

The team standing together inside the yellow walkway, full PPE.

CAMERA

Slow push-in.

CLIP

1A_equipo_acercamiento_v1

1A·2

0:04

VOICE-OVER

> *Voice-over continues from the previous frame*

ACTION

Production operator at the control panel; pellets moving along the line. Guards closed, full PPE.

CAMERA

Slow push-in, pellets animated.

CLIP

1B

0:09

VOICE-OVER

> When you report what you see or experience, you help us identify risks early and prevent future harm.

ACTION

Warehouse operator scanning a pallet from the pedestrian side of the racking.

CAMERA

Lateral slide along the racking.

CLIP

Not animated yet

1C

0:19

VOICE-OVER

> Reporting is quick and easy for everyone in Workday.

ACTION

Office: employee typing on her laptop to start Workday. Screen faces away; the real Workday screen comes in Scene 4.

CAMERA

Gentle push-in toward the laptop.

CLIP

SCENE 2 What is a safety incident? 0:25 – 1:10

MOTION GRAPHIC

On screen: “What is a safety incident?”

2·0

0:25

VOICE-OVER

> Safety events can take different forms, including:

ACTION

Title card on light-blue background.

CAMERA

Motion graphic

ON SCREEN

On screen: “What is a safety incident?”

2A

0:32

VOICE-OVER

> Injuries, such as cuts, burns, strains or fractures.

ACTION

PERSONAL INJURY: operator slips on spilled liquid. Not graphic, no blood.

CAMERA

Locked push-in.

ON SCREEN

Label: Personal injury

CLIP

2A_resbalon_vA / vB

2B

0:37

VOICE-OVER

> Hazards, such as damaged equipment, spills, blocked walkways or other unsafe conditions that could cause harm.

ACTION

HAZARD: liquid leaking from a cracked hose onto the walkway. No people.

CAMERA

Locked push-in.

ON SCREEN

Label: Hazard

CLIP

2B_derrame_vA / vB

2C

0:46

VOICE-OVER

> Near misses, where no one was hurt and nothing was damaged, but easily could have been.

ACTION

NEAR MISS: an overhanging box falls from the racking and lands more than a metre away. Nobody is hit.

CAMERA

Box falls in real time, short hold on the operator's reaction.

ON SCREEN

Label: Near miss

CLIP

Not animated yet

2D

0:55

VOICE-OVER

> Even when a hazard or near miss causes no harm, reporting it gives us the opportunity to learn, address the risk and help keep everyone safe.

ACTION

The three cards connect to one central box “Safety Incident” (orange warning icon), then the three outcomes appear.

CAMERA

Motion graphic with transparent background, over the live shots below.

ON SCREEN

Cards: Personal injury · Hazard · Near miss → Safety Incident → Learn · Address the risk · Keep everyone safe

CLIP

SCENE 3 What should you do? 1:10 – 1:55

3A

1:10

VOICE-OVER

> If an incident occurs, your first priority is to prevent further injury or material damage. If it is safe to do so, stop the activity, secure the area and take any immediate action needed to protect people and create a safe workplace.

ACTION

Operator places a wet-floor sign at the edge of the spill, standing on dry floor.

CAMERA

Medium shot, small push-in.

ON SCREEN

Icon: warning sign

CLIP

3A_cartel_v1

3A·2

1:20

VOICE-OVER

> *Voice-over continues from the previous frame*

ACTION

She raises her arm to stop a colleague and sends him around the spill, inside the walkway.

CAMERA

Locked push-in. Trim at ~4 s.

CLIP

3A_proteger_v1

3B

1:32

VOICE-OVER

> Help anyone who is injured, seek assistance and follow local emergency procedures.

ACTION

A colleague kneels next to the injured operator without touching him and calls for help; the first-aider arrives with the kit. No puddle in the path.

CAMERA

Locked push-in, 10 s.

ON SCREEN

Icon: first aid / radio

CLIP

3B_asistir_10s_v2

3C

1:41

VOICE-OVER

> Once the situation is safe and under control, it is time to report: inform your supervisor or manager as soon as possible…

ACTION

Operator explains what happened to the shift supervisor; the marked-off spill is visible behind them.

CAMERA

Locked push-in, 7 s.

ON SCREEN

Icon: speech bubble

CLIP

3C_aviso_supervisora_v1

3C·2

1:48

VOICE-OVER

> …and submit the incident report in Workday.

ACTION

The operator starts the report on the phone while the supervisor checks her tablet.

CAMERA

Locked push-in, 5 s.

CLIP

3C_reporte_celular_v1

SCENE 4 How to report in Workday 1:55 – 3:25

4A

1:55

VOICE-OVER

> As an employee, you can report safety incidents directly in Workday, helping ensure that important information is recorded promptly. You can report from your computer or phone, whichever is most convenient.

ACTION

Phone operator full screen, then split screen: the office employee on her laptop (left) and the operator on the phone (right).

CAMERA

Split screen with a white divider.

CLIP

4A_montaje_pantalla_partida_v1

4A·2

2:06

VOICE-OVER

> *Voice-over continues from the previous frame*

ACTION

The computer half expands to full screen and the camera zooms into the blank laptop screen, ending on full white.

CAMERA

Zoom into the screen, dissolve into the screen recording.

CLIP

4A_montaje_pantalla_partida_v1

4·1

2:10

VOICE-OVER

> To get started, just open Workday and select “Report Safety Incident” from the menu.

ACTION

Workday logo loads, the loading dots turn into the “Report Safety Incident” button; then the screen recording: open Workday → menu → Report Safety Incident.

CAMERA

Motion graphic, then screen recording

ON SCREEN

Highlight: Report Safety Incident

CLIP

SCREEN RECORDING

Highlight: search bar

4-2

2:20

VOICE-OVER

> You can also search for “Report Safety Incident” using the search bar.

ACTION

Screen recording: type the search term in the search bar.

CAMERA

Screen recording

ON SCREEN

Highlight: search bar

SCREEN RECORDING

Location: In which business unit and site did the incident happen? · Incident date and time: When did the incident happen? · Incident type: What type of incident? · Incident location: In what area did the incident happen? · Summary: Describe what happened and leave out names and other personal information

4·3

2:27

VOICE-OVER

> You just need to complete the following fields: business unit and site; date and time of the incident; type of incident; area where the incident occurred; and a brief summary of what happened. Please do not include names or other personal information.

ACTION

Screen recording: zoom on each field in turn with its call-out.

CAMERA

Screen recording + call-outs

ON SCREEN

Location: In which business unit and site did the incident happen? · Incident date and time: When did the incident happen? · Incident type: What type of incident? · Incident location: In what area did the incident happen? · Summary: Describe what happened and leave out names and other personal information

4B

2:55

VOICE-OVER

> If it is safe and relevant, you can also upload photos before submitting the report.

ACTION

Operator photographs the puddle with the phone from outside it. Sign already in place.

CAMERA

Locked push-in, then the photo appears in the form.

ON SCREEN

Highlight: Take photo

CLIP

4·4

3:03

VOICE-OVER

> *No voice-over (music only)*

ACTION

Screen recording: attachment shown, tap Submit, confirmation. Can open or close with the “Submit Report” button animation.

CAMERA

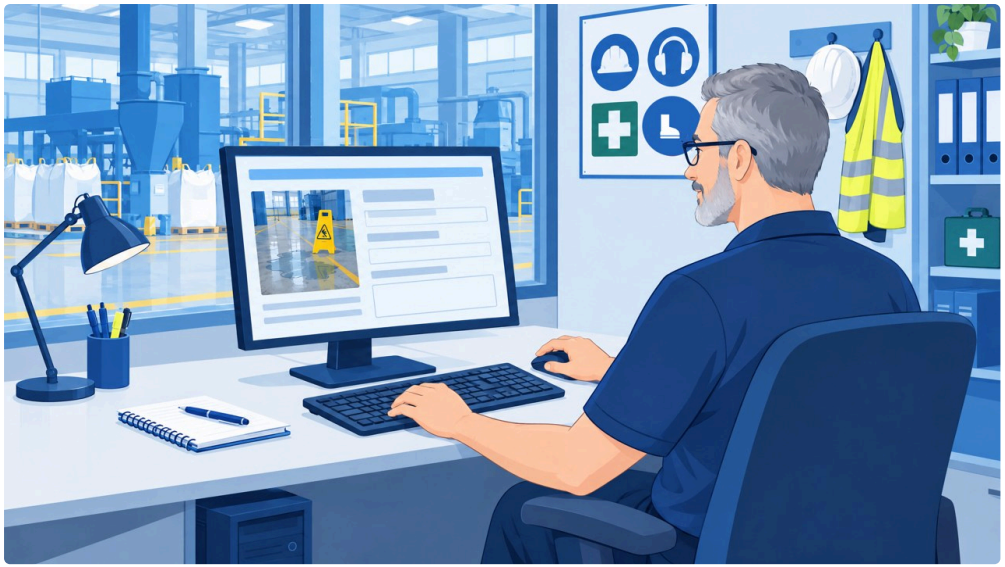

Screen recording + motion graphic

ON SCREEN

Highlight: Submit

CLIP

Workday_bolitas_Submit_Report_1080p24

4C

3:11

VOICE-OVER

> After you submit the report, your local Health & Safety representative will review it, investigate the incident, ensure relevant corrective actions are taken and follow up as needed.

ACTION

A different person in a different place: the site Health & Safety Partner in the H&S office (desktop PC, glass partition onto the production hall, PPE on the hook) reviews the new report and the puddle photo.

CAMERA

Slow push-in over the shoulder.

CLIP

Not animated yet

SCENE 5 Closing 3:25 – 3:47

5A

3:25

VOICE-OVER

> Every report makes a difference.

ACTION

Another site: two operators walking on the marked walkway outside a coastal feed plant.

CAMERA

Wide, slow lateral move.

CLIP

Not animated yet

5B

3:29

VOICE-OVER

> By reporting incidents, you help protect your colleagues…

ACTION

Supervisor and Safety Partner reviewing the improvement trend.

CAMERA

Static, gentle drift.

CLIP

Not animated yet

5C

3:34

VOICE-OVER

> ...and contribute to a safer workplace for everyone.

ACTION

The whole team in the production hall, inside the walkway.

CAMERA

Slow pull-back.

CLIP
