The BioMar Swoosh!

A unified identity

Our product logos have been redesigned to form one visual family. This change reflects BioMar's position as a global brand, where consistency and recognition are key. By aligning the look and feel of our product marks, we create stronger ties across markets and ensure our identity is clear wherever BioMar is present.

One Swoosh. One BioMar.
At the core of this new design is the swoosh. It is the recurring element across all product logos and the link that ties them back to BioMar.

The swoosh symbolises movement, continuity, and the shared purpose of our feeds, while at the same time acting as the symbol that unites the full product range under a single identity. It ensures that every product logo is instantly recognisable as BioMar, providing a consistent visual signature across the entire portfolio.

Watch The BioMar Swoosh video!

Standard Version

Logo

Body Text

EFICO Alpha is a versatile range delivering for multiple farming conditions.

EXIA Prime is best used in intensive conditions or when there is a high metabolic demand for the shrimp.

Internal Capitalisation

Logo

Body Text

LARVIVA ProStart is a premium high protein larval feed with an optimised amino acid profile and micronutrients (...)

LARVIVA ProWean is a high protein extruded feed, based on the highest quality proteins and lipids (...)

2+ Words Sub-brand

Logo

Body Text

EXIA Maxio Boost acts as a booster for both of P. monodon and L. vannamei.

POWER Rainbow Extreme provides maximum growth for customers who want to get the most out of their fish.

Capitalisation of Product Names

For consistency, product names with sub-brands follow a clear capitalisation rule. On logos, both the concept name and the sub-brand are always written in uppercase letters to ensure a uniform visual expression.

In body text, there are different versions on how to display the sub-brands.

Standard Version
In body text, the concept name is always written in uppercase, while the sub-brand follows its defined form. For standard sub-brands, this means the first letter is uppercase and the remaining letters are lowercase.

Internal Capitalisation
In body text, the concept name is always written in uppercase, while the sub-brand follows its defined form. For sub-brands with specific internal capitalisation, such as "ProStart," this structure must always be retained.

2+ Words Sub-brand
In body text, the concept name is always written in uppercase, while the sub-brand follows its common form: the first letter in uppercase and the remaining letters in lowercase, unless otherwise specified. If the sub-brand consists of two or more words, all words will begin with an uppercase letter.

Additional Letters

In body text, the concept name is always written in uppercase, while the sub-brand follows its common form. When the sub-brand contains a word followed by letters, the word is written with the first letter uppercase and the remaining letters lowercase, while the extra letters remain in full uppercase. For example: "Plus MT"

Capitalisation of SmartCare Products

SmartCare follows a specific capitalisation rule. The concept name is always written as SmartCare with a capital "S" and "C," both in logos and in body text.

On logos, sub-brands are always written in uppercase letters to ensure a strong and consistent visual identity.

In body text, sub-brands follow the standard capitalisation rules:

- For single-word sub-brands, only the first letter is uppercase (e.g. Calm).
- For sub-brands with more than one word, each word begins with an uppercase letter (e.g. Assist Skin).
- For sub-brands that include standalone letters, those letters remain in uppercase (e.g. Control Gill Q).

Additional Letters

Logo

INICIO™ PLUS S

ORBIT™ EX INTRO

Body Text

INICIO Plus S is BioMar's high-quality extruded starter feed range, designed to give fry the very best start in life.

ORBIT EX Intro is a diet specially developed for post-smolt produced in recirculating aquaculture (...)

Capitalisation of SmartCare Products

Logo

SmartCare® CALM

SmartCare® CONTROL GILL Q

SmartCare® ASSIST SKIN

Body Text

Made with natural ingredients, trials have shown an increased feed intake when compared to other stressed fish that were not fed **SmartCare Calm.**

Several factors in the sea can cause wounds in fish, which increases the risk of secondary bacterial infections. **SmartCare Assist Skin** is developed to help fish prevent and recover from wounds.

Control Gill Q is developed to strengthen the gill barrier by promoting an anti-inflammatory effect that improves gill functionality.

LARVIVA®

LARVIVA offers a complete range of hatchery feeds tailored for fish and shrimp. It is specially developed to maximise the success of the hatchery operations. Designed to give larvae a strong Start and ensure Robust, high-quality fry and post larvae, well-prepared for the grow-out stage.
Start Strong. Stay Strong.

LARVIVA Concept

Description

LARVIVA offers a complete range of hatchery feeds tailored for fish and shrimp. It is specially developed to maximise the success of the hatchery operations. Designed to give larvae a strong Start and ensure Robust, high-quality fry and post larvae, well-prepared for the grow-out stage.

Start Strong. Stay Strong.

Tagline:
START STRONG. STAY STRONG.

LARVIVA Logo

Single Colour Logo
The LARVIVA logo should always be displayed in a single colour.

(See Left)

Logo Colours

The LARVIVA logo uses single colours. The approved colours to be used are; BioMar Blue and White.

BioMar Blue

RGB: 31 62 119
CMYK: 100 84 26 12
PANTONE: 654 C
HEX: #1f3e77

White

RGB: 255 255 255
CMYK: 0 0 0 0
HEX: #ffffff

Tagline

The tagline should be displayed by itself or under the LARVIVA logo.

They should always be displayed in a single colour.

The logo with tagline has a fixed position, and should not be altered.

START STRONG. **STAY STRONG.**

LARVIVA®
START STRONG. **STAY STRONG.**

LARVIVA®
START STRONG. **STAY STRONG.**

Incorrect Uses

The dimensions for the logo are fixed, and should not be altered. The logo should never be re-created.

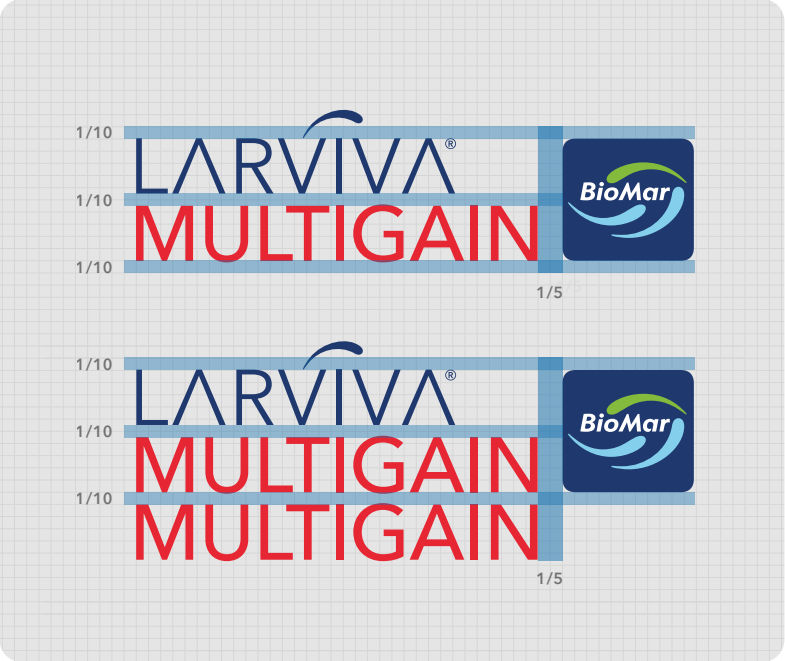

- Alter the dimensions
- Change the colour
- Flip and/or move the icon
- Change the spacing
- Type the logo

LARVIVA Sub-branding

To ensure visual consistency across the LARVIVA portfolio, all sub-products follow a defined branding structure that maintains coherence with the core brand.

Logo Layout

The first line always displays the main LARVIVA logo.

The second line contains the sub-brand name, left-aligned beneath it.

Sub-brand names should not exceed 8-10 characters per line. If a name includes more than two words or exceeds 10 characters, a third line may be added. A maximum of three lines is allowed.

Spacing between the LARVIVA logo and the sub-brand name is fixed at one-tenth of the BioMar logo height. Spacing between the sub-brand and the BioMar logo is fixed at one-fifth of the BioMar logo height.

Sub-brand colours must be selected from the approved BioMar colour palette. If a new colour is required, it must be pre-approved by Global Marketing. Please refer to the colour palette section of this document for available options.

Typography

The main LARVIVA logo uses Avenir Next Regular and it is custom made.
The sub-brand name uses Avenir Next Medium.

Sub-Brand Overview

For Fish

- LARVIVA® BROODSTOCK
- LARVIVA® MULTIGAIN
- LARVIVA® PROSTART
- LARVIVA® PROWEAN
- LARVIVA® PRONURSE
- LARVIVA® ORBIT

For Shrimp

- LARVIVA® ZOEA
- LARVIVA® MYSIS
- LARVIVA® PL 200
- LARVIVA® PL 300
- LARVIVA® PL 400
