INICIO Sub-branding

To ensure visual consistency across the INICIO portfolio, all sub-products follow a defined branding structure that maintains coherence with the core brand.

Logo Layout

The first line always displays the main INICIO logo
The second line contains the sub-brand name, left-aligned beneath it.

The INICIO logo features a distinctive symbol replacing the final "O." When a sub-brand is added, this symbol shifts to the left as a standalone element, and a standard typographic "O" is introduced into the logo to ensure legibility.

Sub-brand names should not exceed 8 -10 characters per line. If a name includes more than two words or exceeds 10 characters, a third line may be added. A maximum of three lines is allowed.

Spacing between the INICIO logo and the sub-brand name is fixed at one-tenth of the BioMar logo height. Spacing between the sub-brand and the BioMar logo is fixed at one-fifth of the BioMar logo height.

Colour usage is fixed for this system: the INICIO logo must always appear in Celeste, and the sub-brand name must always appear in BioMar Blue.

Typography

The main INICIO logo uses Avenir Next Regular.
The sub-brand name uses Avenir Next Medium for visual contrast.

EXIA Sub-branding

To ensure visual consistency across the EXIA portfolio, all sub-products follow a defined branding structure that maintains coherence with the core brand.

Logo Layout

The first line always displays the main EXIA logo
The second line contains the sub-brand name, left-aligned beneath it.

The EXIA logo features a distinctive shrimp symbol on the left. When a sub-brand is added, this symbol changes its size to fit 2 lines of text beside it.

Sub-brand names should not exceed 8 - 10 characters per line. If a name includes more than two words or exceeds 10 characters, a third line may be added. A maximum of three lines is allowed.

Spacing between the EXIA logo and the sub-brand name is fixed at one-tenth of the BioMar logo height. Spacing between the sub-brand and the BioMar logo is fixed at one-fifth of the BioMar logo height.

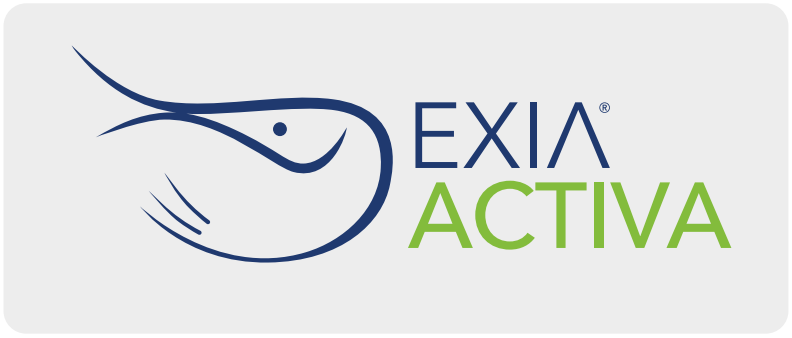

Sub-brand colours must be selected from the approved BioMar colour palette. If a new colour is required, it must be pre-approved by Global Marketing. Please refer to the colour palette section of this document for available options.

Typography

The main EXIA logo is costum made. The sub-brand name uses Avenir Next Medium for visual contrast.
